

**Declaration of Conformity for BEWI Denmark regarding compliance
with RoHS Directive 2015/863/EU, REACH Directive 2006/1907/EC,
POP Regulation 1021/2019, Packaging Regulation 2025/40/EU,
TSCA and WEE**

Holbæk June 2026

BEWI Denmark declares that its products made of EPS, EPP, XPS, EPE, Piocelan, and paper are manufactured in compliance with the above-mentioned directives and their updates.

The REACH directive

Prohibits the use of a number of chemical substances and is continuously updated, BEWI Denmark ensures, together with our raw material suppliers, that our products do not contain substances that are on these lists.

Similarly, we are aware of substances on the SVHC list, so that we can inform our customers in good time if any of the ingredients should appear on this list.

The RoHS directive

Prohibits the use of four heavy metals: Lead, mercury, cadmium, hexavalent chromium as well as two groups of flame retardants: PBBs and PDBEs and 4 types of phthalates DEHP, BBP, DBP and DIBP.

None of our raw materials contain these heavy metals or chemical products, and we do not use any of these substances in our production.

POP

Regulation prohibits the use of a number of persistent organic pollutants and is continuously updated, BEWI Denmark ensures, together with our raw material suppliers, that our products do not contain substances that are on these lists.

PACKAGING

Packaging and products made of EPS, EPP, Piocelan, and paper comply with PPWR Regulation 2025/40 of 19 December 2024.

Product produced from EPS, EPP and paper are 100% recyclable.

TSCA (US federal law)

Our products do not contain substances on the ban list

WEEE

The directive concerns the management of electronic waste.

BEWI Denmark does not supply electronic equipment, but only packaging in EPS, EPP, Piocelan and paper, therefore our products are not covered by the directive.

If you need further information or clarification, please contact the usual contact person within BEWI Denmark in the first instance.

Med venlig hilsen/Best Regards
